

# Energy Storage System

The only back-up power solution in the market to provide 10 years of warranty.

## BACKUP POWER

## ESS-500 CONFIGURATIONS

Input: 48VDC/15A (max.)  
Capacity: 2,000Wh  
Output: 50A (max.)  
Operating temperature: 0 - 45°C  
Weight: 25Kg  
Cycle life: 500

## REVOLUTIONARY BALANCING TECHNOLOGY

### THE VALUE OF OUR ESS-500

1. Status monitor - precautionary alerts
2. Long cycle life of battery pack
3. Swappable for maintenance
4. Scalable for upgrades or add on power capacity

### TARGETED APPLICATIONS

ESS-500 is an Energy Storage System designed as a back-up power with revolutionary technology for those mission-critical applications that cannot afford to have power outages. For example: Telecom tower/SRM stations, IT networking servers, PBX system, etc.
